## **SKIN / LASER TREATMENTS**

**Laser Hair Removal by Gentle Max Pro – Consult Required**

Remove and reduce unwanted hair via state of art laser device for all skin types.

**Micro-needling + PRP**

To reduce the visibility of acne scars and fine lines, effectively rejuvenating the skin's tone, texture, color and appearance overall plus the plasma component taken from your blood that contains special proteins that support cell growth.

**Micro-needling + Exosome**

Exosome therapy is comparable to PRP therapy; However, the most significant distinction is that these growth factors are not extracted from the patient's own blood; instead, they are produced in a laboratory.

Uses a pen-like device that discharges a high-frequency electric current to small areas of the skin. The plasma tip doesn't directly touch the skin, but instead releases a targeted current just above the skin. The hot current creates small holes, or micro-injuries, in the skin's layer.

## **SEXUAL HEALTH**

### **Vaginal Rejuvenation with PRP**

Stimulate vaginal and clitoral rejuvenation.

### **Penile Rejuvenation with PRP -**

Enhances your natural erections.
